

# Cover Letter

Django Backend Engineer – Data &  
Performance  
Sina Lalehbakhsh

# Introduction

- Dear Stream Manager,
- I am writing to express my interest in the Django Backend Engineer position. I am a results-driven backend engineer with a strong focus on data modeling, Django ORM optimization, and high-performance database systems.

# Technical Background

- I have extensive experience with Python and Django, working on backend architectures focused on clean data structures, optimized queries, and scalable services.
- Technologies:
- Django, DRF, FastAPI, Linux, Docker, Docker Compose, MySQL, MongoDB

# DevOps & Cloud Experience

- I have completed professional DevOps and Cloud training at Arvan Academy.
  - Associate DevOps Engineer
  - Foundational Cloud Practitioner
- Experienced with CI/CD concepts, Linux systems, and containerized deployments.

# Open Source & Projects

- I actively contribute to open-source and maintain professional repositories.
- Released Projects:
  - git-auto-django (PyPI)
  - AcronProject
  - push-py
- GitHub & PyPI presence focused on automation and backend tooling.

# Art Impact & Creative Background

- Background in visual communication and graphic design.
- • Sculpture and 3D artistic forms
- • Logo and visual identity design
- • Portrait drawing and painting
- This creative mindset strengthens my problem-solving and system design skills.

# Education & Media Work

- Education:
  - Graphic Design – Kamalolmolk (2011)
  - Python – Harvard (EDX, 2020)
  - DevOps & Cloud – Arvan Academy (2025)
- Educational content creator on YouTube, Telegram, and Instagram (AcronProject).

# Closing

- I am highly motivated to join a team where I can contribute backend expertise, data-focused thinking, and continuous learning.
- Thank you for your time and consideration.
- Kind regards,
- Sina Lalehbakhsh
